

Analysing a A2 Music Videos to a Actual Music Videos

[Mr Brightside - The Killers \(a-level music video\)](#)

This Music video has a clear story that relates to the song. I enjoyed this music video because it shows two sides of the girl's relationships. The camera is used well with every shot that is shown as they used a variety of shots such as a mid shot, close up shot and long shot. In the background of this music they have a killers poster on the wall, this shows that they are a fan of The Killers. This music video is set outside in the middle of the town and also in his bedroom. This video is similar to the video that I would like to create such as the love and hate relationship that shows throughout the video. They use props in their video such as phones and they also show the real band in the video (The Killers).

[Katy Perry - Teenage Dream](#)

This Music Video is set in the summer as it is set on the beach. This is a happy song and the video fits well with the song. This video is bright as its sunny which sets an atmosphere in the video. In this video it only shows her and the models relationship. They are in separate cars to the others cast, but they join for the party on the beach. This video uses extra cast to make the video more exciting and fun. I like the idea of using a group in a music video as it make the video more happy as if there is only one person in the video, it can get boring. In this video they use props such as a car, this makes the video exciting as the race their car together. I enjoy this music video as it has lots of things going on in the video.

[Pixie Lott - Turn it Up](#)

In this music video it shows her in walking around on the streets on a summers day. The costumes the cast and pixie Lott wears is summer clothes such as play suites and dresses. In this video they dance on a rooftop with a group of dancers. This shows that they are having fun. It also shows a narrative in this video by the way she has a opposite binding relationship. The props they use in this video is a car with Pixie Lott sits in and uses an green screen background when she steps out of the car. This shows by the shadow of light shining on the her and the lead man. This video shows her rooftops but they also looks it has been through photoshop as it does not look real in the audiences view.
